MBP Congratulates Plains Processors on Expansion

WINNIPEG – Manitoba Beef Producers (MBP) welcomes the announcement that Plains Processors has moved forward on upgrading its processing facility to federal standards.

"We congratulate Plains Processors for expanding its presence in the province and we are pleased that we will have a new federally inspected beef processing plant," said Ray Armbruster, MBP president.

Beef production represents Manitoba's single largest agricultural sector in terms of the number of individual farm operations there are in the province. The beef industry plays a vital role in the maintenance of Manitoba's economic sustainability.

"We welcome Plains Processors' new role in the beef value chain in Manitoba," said Armbruster.
